

# Dance This World Away

Rick Springfield

Everybody looks so spaced out there  
Busy bowing to the priests of noise  
Turn it up and make it drown out the warning  
Bad news for the girls and boys  
Everybody looks so romantic  
Acting like it's nothing at all  
Looking out for number one  
Working for the week and living to the beat

Dance This World Away  
Dance This World Away  
Dance This World Away  
Dance This World Away

I see people all dressed like Nero  
Fiddling while Rome burns in strife  
Personal responsibility zero

We've lost that rhythm of life  
There's a shadow on our bright horizon  
It won't be manna falling out of the sky  
The hard rain hits everyone  
Working for the week and living to the beat

Dance This World Away  
Dance This World Away  
Dance This World Away  
Dance This World Away

Somewhere there is a ship that's sinking  
Why do I think that nobody knows  
Looking out for number one  
Working through the week and dancing to the back beat

Dance This World Away  
Dance This World Away  
Dance This World Away  
Dance This World Away
