

# Depravity

Rick Springfield

Running away from the sulfur on the streets  
This city burns, it never sleeps  
The quicksand pulls, I can't break free  
Let go of me, depravity

And I cannot deny there's blisters on my feet  
From the fire, can you make me complete  
Turn this black sheep to family  
It's hard to believe I've slid into this hole  
This place has leaked into my soul  
Oh let me be, depravity  
Falling forward, I'll be free

Save me from the dark man who came to town  
Save me I don't want to be lost but found  
Save me so I won't burn this whole thing down  
Save me from myself and my d-e-p-r-a-v-i-t-Y

Gonna put up a fight just to keep the peace  
In the blink of an eye the strong are weak  
All upside down this gravity  
Taken a side with a heart as black as coal  
Making the big green, let it roll  
This pretty pill, depravity  
Fallin forward, I'll be free

Save me from the dark one who comes around  
Save me I don't want to be in this crowd  
Save me, so I won't tear this to the ground  
Save me, from myself and my d-e-p-r-a-v-i-t-Y

Save me from the dark men who came to town  
Save me, I don't want to be lost, but found  
Save me, so I won't burn this whole thing down  
Save me, I don't want to be pushed around  
Save me, so I won't tear this to the ground  
Save me from myself and my d-e-p-r  
From myself and my d-e-p-r-a  
From myself and my d-e-p-r-a-v  
From myself and my d-e-p-r-a-v-i-t

D-e-p-r-a-v-i-t, d-e-p-r-a-v-i-t, d-e-p-r-a-v-i-t
