

## Everybody's Cheating

Rick Springfield

Keeping us together and holding us apart  
Is a love that we talk about  
I'm finding it harder every day to take it as it comes  
But as one fool once explained to me you can't choose who you love

Everybody's Cheating on the one they love  
Everybody's looking for the summer sun  
No I believe I'll love you 'til my life is done  
I'll live your lies and alibis  
The telltale stories in your eyes  
Cause you are, you are the one I love

Yes I love you, like you love me  
I need you like a lover  
No you need me and I need you  
We're still cheating on each other

Everybody's Cheating on the one they love  
Everybody's looking for the summer sun  
No I believe I'll love you 'til my life is done  
I'll live your lies and alibis  
The telltale stories in your eyes  
Cause you are, you are the one I love

What is the question  
What is the answer  
What is the reason why  
People like you and people like me  
Live our lives with lies

Everybody's Cheating on the one they love  
Everybody's looking for the summer sun  
No I believe I'll love you 'til my life is done  
I'll live your lies and alibis  
The telltale stories in your eyes  
Cause you are, you are the one I love
