

I Found You

Rick Springfield

Everything is old
While everything is turning new
It still remains the same
Just in different ways

And that's when I found you
Somewhere between pain and fear
You got me on my feet
Just in time for me

And then you walked into my thunderstorm
And stopped the rain from falling
And then you made flowers from hurricanes
You got me through

That's when I found you
That's how I found you

I'm so glad you called
Cause I'm too blind to read the wall

I'll always wonder why
You taught me to fly

And then you walked into my thunderstorm
And stopped the rain from falling
And then you made flowers from hurricanes
You got me through

That's when I found you
That's how I found you

And then you walked into my thunderstorm
And stopped the rain from falling

And then you made flowers from hurricanes
You got me through

And then you played music in silent ways
And filled my years with laughter
And then you came into a young man's life
And got me through

That's when I found you
That's how I found you
