

The Light of Love

Rick Springfield

Standing at the terminal I can almost hear the music
Coming from the cold and chilly L.A. night
And when we get to the gate, baby
All of the things that were said
Will they turn you 'round and bring you back
Will they bring you back
Will you come back home 'cause you know I'm waiting

The Light Of Love is always on
You know my love is getting stronger and stronger
The Light Of Love is always on
Keeping the night watch

Baby, are you lonely, Don't Talk To Strangers
I'm trying to tell myself you won't be gone for long
And when we get to the part baby, where all of the tears start
to come
Will you turn around, get on the plane
Will it bring you back, will you come back home
'Cause you know I'm waiting

The Light Of Love is always on
You know my love is getting stronger and stronger
The Light Of Love is always on
Keeping the night watch...

The Light Of Love is always on
You know my love is getting stronger and stronger
The Light Of Love is always on
Keeping the night watch
The Light Of Love is always on

You know my love is getting stronger and stronger
The Light Of Love is always on
Keeping the night watch
Keeping the night watch
Keeping the night watch
