

Theme from Mission Magic

Rick Springfield

Do you believe, you believe in magic, 'cause I believe, I believe that I do
Yes, I can see, I believe that it's magic
If your mission is magic, your love will shine through
Do you believe, you believe in magic, 'cause I believe, I believe that I do
Yes, I can see, I believe that it's magic
If your mission is magic, your love will shine true
If there's one thing that the world needs, it's a magic singing song
And I'll teach it to the whole world and make them sing along
Love is magic, it's so easy, and it's not hard to do
'cause everybody, wants somebody, to give a little magic to
Do you believe, you believe in magic, 'cause I believe, I believe that I do
Yes, I can see, I believe that it's magic
If your mission is magic, your love will shine true
I've seen so many, unhappy people, reaching out in vain
You got the power, to shower, love like summer rain
Love is magic, it's so easy, and it's not hard to do
'cause everybody, wants somebody, to give a little magic to
Do you believe, you believe in magic, 'cause I believe, I believe that I do
Yes, I can see, I believe that it's magic
If your mission is magic, your love will shine true
Do you believe, you believe in magic, 'cause I believe, I believe that I do
Yes, I can see, I believe that it's magic
If your mission is magic, your love will shine true
If your mission is magic, your love will shine true
If your mission is magic, your love will shine true
