

# Venus In Overdrive

Rick Springfield

Alone in a world of 6 billion I was feeling my soul rust  
Yeah I saw that everything was broken everything was ashes  
Everything was dust

(I say this) I say this jut to let you know  
(I say this) I'd be crazy if I let you go  
I'd be stoned I'd be stupefied  
And I don't want to run and hide

Here's me thinking love can never survive (yeah yeah)  
You showed up Venus in overdrive  
Sex just got me buried alive (yeah yeah)  
Turn on Venus in overdrive

The thing about love is, it's not kismet  
You don't choose it. It choose you  
I write words about it but I doubt it, if I even have a clue  
(I say this) We all think it's the big freak show  
(I say this) The fat end of the great rainbow  
I get blind I get stupid and you know I get so convoluted

Here's me thinking love can never survive (yeah yeah)  
You showed up Venus in overdrive  
Sex just got me buried alive (yeah yeah)  
Turn on Venus in overdrive

Here's me thinking love can never survive (yeah yeah)  
You showed up Venus in overdrive  
Sex just got me buried alive (yeah yeah)  
Turn on Venus in overdrive
