

What's Victoria's Secret?

Rick Springfield

Tell me her name, cause I really want to see her
Tell me her game, cause I need an exit strategy, oh what a tragedy
But I know she's not what's best for me and I know she'll cause me harm
And I know she'd rather fly away to someone else's arms
Oh it's true the world wants a mystery
But I need to know one thing

What's Victoria's Secret? Tell me if the clothes she wears will expose
all of my weakness, woman I just can't let go till I know
Victoria's secret, whispering her love song in my ear
Victoria's secret, will haunt me today
Do I really need to know her name

Show me that face, is it really what it claims to be
Show me that brain, is it really based in fantasy, oh it's vanity
Yeah she seems to get the best of me, of what little there is left
And it seems that she's controlling me, like a robot in a trance
And it's true we don't learn from history
But I got to know one thing

What's Victoria's Secret? Tell me if the skin she bares will expose
all of my weakness, woman I just can't let go till I know
Victoria's secret, whispering her love song in my ear
Victoria's secret, will haunt me today
Do I really need to know her

Will I find
Peace of mind
in a photograph of holidays
That little girl from yesterday
What was that name, did I ever really know her

What's Victoria's Secret? Tell me if the clothes she wears will expose
all of my weakness, woman I just can't let go till I know
Victoria's secret, whispering her love song in my ear
Victoria's secret, will haunt me today
Did I ever really know her
Victoria's secret, will haunt me today
Will you ever really know her
Victoria's secret, will haunt me today

Can we ever really know her name
