

## You Can Really Do It (If You Try)

Rick Springfield

You can really do it if you try  
You can really do it if you try  
You can really do it if you try  
If you'll just let your mind take over.

I, I, I believe in you  
You know there's nothing you can't do  
Sun, sun, sun will shine on, shine on through  
The moment that you realize it's true, oh yes, it is.

You can really do it if you try  
You can really do it if you try  
You can really do it if you try  
If you'll just let your mind take over.

Dream, dream, dream, no time to dream away  
'Cause you've got better things to do  
High, high time to get yourself together  
'Cause I know you can make it if you try, oh yes, you can.

You can really do it if you try  
You can really do it if you try  
You can really do it if you try  
If you'll just let your mind take over.

Du du du du ...

High, high time to get yourself together  
'Cause I know you can make it if you try, oh yes, you can.

You can really do it if you try  
You can really do it if you try  
You can really do it if you try  
You can really do it if you try  
You can really do it if you try  
If you'll just let your mind take over.

Du du du du ...
