

Liberty

Rick Wakeman

I'm dreaming of a lifetime's freedom
That stretches all around the world
I'm talking about the biggest creature
I'm talking about the smallest bird
I'm singing out for liberation
I wanna move where I please
I wanna strike a note for freedom
Here's my song of liberty
Well all right
Here's my song
Are you doing all right
Here's my song
Are you ready to fight
To be free
Gonna fight for the right
Liberty
Well you're doing all right
I'm fighting for my children
As my father fought for me
Blood and sweat go hand in hand
Here's my song for liberty
Liberty
Well I'll fight for the right
Liberty
Are you doing all right
Liberty
Well I'll fight for your right
Liberty
I'm living on a crime of passion
A passion that will set me free
I'm ready now to really suffer
To do just as I please
I've got him on my side
I know he'll fight for me
I hear the bells a ringing
They ring for liberty
Liberty
Well can you hear
Liberty
Well can you see
Liberty
Well can you feel
Liberty
You're doing all right
Liberty
Liberty
Liberty
Liberty
I'm looking for a chain reaction
When people start to cheer
I feel my body shaking
As my cause begins to steer
To war's a big solution
To war's the final show
This time is right for action
I know it's time to go
Here's our song

Well you doing all right
Hold me strong
Are you ready to fight
To be free
Then fight for the right
Liberty
Well you're doing all right
All right
There's gonna be revolution
Everything will turn out fine
There's only one solution
Show that banner, show that sign
We're searching for our independence
It belongs to you and me
Sing a song of future freedom
The song of liberty
Liberty
Wanna hear you sing
Liberty
Come on and bring
Liberty
Only love
Liberty
Well sing your song
You're doing all right
All right
Liberty
Let me hear you sing
Liberty
Come on and bring
Liberty
And only love
Liberty
Well sing your song
Well you're doing all right
