

## Left To Right

Ricki-Lee

OH OOOHH...

Move it left to right [x3] (OH OH)  
Move it left to right [x3] (OH OOOHH)

Stop questioning and don't ask me  
Don't chase me cos you can't catch me  
Don't look because you won't see me  
Don't judge because you don't know me

Everybody's out of control  
There's something so irresistible  
About leaving it all behind  
Just leave it all out on the floor tonight OH!

Move it left to right [x3] (OH OH)  
Move it left to right [x3] (OH OOOHH)  
Everybody get on the floor  
And let the music lift your soul  
Raise your hands up to the sky  
Brace yourself come on let's go  
Move it left to right [x3] (OH OH)  
Move it left to right [x3] (OH OOHOOH)

Drink in my hand yeah that's right  
And we're dancing until the sunlight  
Walk in the club and it's all eyes  
Hips are shaking with the bass line  
So let's escape, together we can dance the night away  
Just let it go, we're gonna party like its our final day  
So everybody, OH!
