

Wiggle It

Ricki-Lee

Wiggle It, Just a little bit, now let me see you Wiggle it, Just a little bit

The floor is calling but I, can't do it on my own
I need someone who is willing, to get down with me all night
Boy are you that somebody? I wanna rock this party
We'll keep it moving all night long...

I need you to work with me a little bit, work it just a little bit

Work it just a little cause I just wanna Wiggle it
Just let me turn around, baby I wanna be your lady
And you make me go crazy the way you shake it for me

Baby I need you to shake that a little for me
Come closer boy cause I want you to put it on me
Why don't you show me just what you can do for me?
Baby I need you to Wi-Wiggle it Wiggle it
Wiggle it just a little bit,
Now let me see you Wiggle it just a little bit

Ooooh I'm looking for somebody who can go all night with me
So baby do your thing and show me what you got for me
Cause I don't even really wanna waste my time on someone full of shhhhhhhhhhhh
So baby, why don't you SHOW ME

I need you to work with me a little bit, work it just a little bit

Work it just a little cause I just wanna Wiggle it
Just let me turn around, baby I wanna be your lady
And you make me go crazy the way you shake it for me

Baby I need you to shake that a little for me
Come closer boy cause I want you to put it on me
Why don't you show me just what you can do for me
Baby I need you to WI-Wiggle IT Wiggle IT
Wiggle It just a little bit
Now let me see you Wiggle It just a little bit

[Rap:]

Baby I need you to shake that a little for me
Come closer boy cause I want you to put it on me
Why don't you show me just what you can do for me
Baby I need you to WI-Wiggle IT Wiggle IT
Wiggle It just a little bit
Now let me see you Wiggle It just a little bit
