Circle In The Sand

Rickie Lee Jones

The sun's goin' down I'm goin back to my cave I've got no one to meet No one to save

I like the music In my head I think I'll go away For her instead, yeah

I draw a circle in the sand Draw a circle in the sand Draw a circle in the...yeah

Soft sweet devil lights my way...yeah

It's time to go home Rise like an animal balloon Peers over Jerusalem I can't fall too soon

And the angels picked me up And called my name She's sweet charity But peace is power, and money, and fame

Well I draw a circle in the sand Draw a circle in the sand I draw a circle in the...yeah

Soft sweet devil to light my way Oh a soft sweet devil to light my way

It's time to move on, to dream the dreams of the hungry To cast a spell to the homeless, barefoot and poor Where nobody bothers you, your anybody's friend Draw a circle in the sand, everybody wants sand
