

# It's Alright

Ricky Martin

Dissipate your every mood  
I got nothing left to prove  
Something, something I can't explain  
Every time I look at you, I realize what I got to do  
It's soothing and take you under the rain  
And I feel so nice...  
Crossing all the lines, taking an chance  
Doing what we need to feel alive  
And I feel so right...  
Come and do it now, we got to scream, scream all night

R: It's alright, don't be afraid don't hesitate now  
Feels right, let's take it now don't wait for later  
Tonight, and if it feels right just let it go  
And if it's alright you got to let it flow [2x]  
If I'm wrong don't want to know  
If I'm right just let it show  
It's crazy, so crazy it just might be  
I only care about today, tomorrow is too far away  
Let's take it, and run run away with me  
It feels so nice...  
Crossing all the lines, taking any chance  
Doing what we need to feel alive  
Yeah it feels so right...  
Come and do it now, we got to scream, scream all night

R:

I think I love you, and I need you by my side baby to the morn  
ing light  
I know I want you, what I got for you is love  
I got love, love, love, love...

R:

Don't be afraid don't hesitate now  
Let's take it now don't wait for later  
And if it feel right just let it go  
And if it's alright you got to let it flow [2x]
