

## Doll Hospital

Ricky Nelson

Well, lots of little pieces make up the little girl  
Such a tiny thing in this great big world  
Well, now I've got to find out what's crackin' up  
My little buttercup  
I got to take her to the doll hospital

Well I bought her a dollhouse and a Corvette too  
She's got everything's Barbie's got, I'm tellin' you  
But every time I make a move just to touch her hair  
She says, "Little boys should play with teddy bears"  
I'm gonna take her to the doll hospital

Uh-huh, oh yeah  
Baby you'll be all right  
I'm gonna take you  
To the doll hospital tonight  
Uh-huh, oh yeah  
Baby you look a fright  
I'm gonna take you to the doll hospital

Well, all in love is fair  
But it's the wear and tear  
And words left unspoken  
That leave hearts broken  
But I never tore your legs off  
Or threw you on the floor  
Now I know baby cries a lot  
But please don't cry no more

When we played doctor I must have made a mess  
But I fixed her little wagon up good, I guess  
She said Ken never made her heart beat so  
But he lacked that certain somethin' as we all know  
Now I burst her little bubble, her mind's about to go  
I gotta get her to the doll hospital

Uh-huh, oh yeah  
Baby you'll be all right  
I'm gonna take you  
To the doll hospital tonight  
Uh-huh, oh yeah  
Baby you look a fright  
I'm gonna take you to the doll hospital
