

Right By My Side

Ricky Nelson

Don't you know that I'm lost without your love

And I just keep dreamin' of
The way that it used to be
So satisfied

Yeah honey but ever since you've been gone
Well I just can't along
Oh I can't get along without you, baby
Hoh, right by my side

You know you took, took my heart
Yeah, you took it and you tore it apart
Well I just couldn't keep ya
Even though I tried
Don't you know I tried

And I really really love you so
How much you'll never never know
And I can't get along without you, baby
Hoh, right by my side

You know that in your arms is where I long to be
Ahh, yessireee
And I hope someday I'm gonna find me a way
To bring you back home to me

And when you left me all alone
Oh, I sat right down and I cried
'Cause I can't get along without you, baby
Hoh, right by my side
Just gotta be right by my side
Oh yeah

Well in your arms is where I long to be
Ah yessiree
And I hope someday I'm gonna find me a way
To bring you back home to me

Now when you left me all alone
Oh I sat right down and I cried
'Cause I can't get along without you, baby
Hoh, right by my side
Just gotta be right by my side
In the mornin', right by my side
In the evenin', right my side
In the between time, right my side
After breakfast, right my side
