

# Home Is Wherever You Are

Ricky Skaggs

I've traveled every highway  
Down every dusty road  
Beneath the silver moonlight  
I counted every star that shone

I've seen all special places  
Everybody wants to see  
But there's no magic in the place, dear  
If you're not there with me

Home is wherever you are  
Home is here in your arms  
With you love is safe and warm  
Home is wherever you are

I've sung most every love song  
Even wrote some of my own  
I was born to be a dreamer  
And played this guitar till I'm gone

But of all that I'm still learning  
One thing I know is true  
If home is where your heart is  
Then my home's here with you

Home is wherever you are  
Home is here in your arms  
With you love is safe and warm  
Home is wherever you are

Home is wherever you are  
Home is here in your arms  
With you love is safe and warm  
Home is wherever you are
