

# Let It Be You

Ricky Skaggs

If I could find a love to treasure with this heart and with the  
se hands  
I could build a strong foundation in a world of shifting sands  
If I could show just what I've made up it'd be surprise what I  
can do  
But I need someone to help me, let it be you

'Cause I ain't to find somebody who really understands  
The things that make a difference between a woman and a man  
Yeah I bet all my best intentions will never see me through  
If I don't find what I'm missin', let it be you

Let it be you who wakes me in the morning  
Let it be you who lays down with me each night  
Side by side we can dream together  
Let it come true, let it be you

There are lessons in this life I can't learn all by myself  
There's beauty I can only see through the eyes of someone else  
There's a place I've always heard of only love can take me to  
But I need someone beside me, let it be you

Let it be you who wakes me in the morning  
Let it be you who lays down with me each night  
Side by side we can dream together  
Let it come true, let it be you, let it come true, let it be yo
