

Picture

Ricky Skaggs

At the foot of a soaring mountain
You're still the biggest thing in that picture
Are you really worth counting?
You're still the biggest thing in that picture

At the edge of an endless ocean
You're still the biggest thing in that picture
Of all creation, God's notion
You're still the biggest thing in that picture

Don't you feel so small
Don't you feel so small
God doesn't see you that way at all

Things you've done wrong, they are towering
You're still the biggest thing in that picture
What He is saying, could you really be
Still the biggest thing in that picture?

Don't you feel so small
Don't you feel so small
God doesn't see you that way at all

Nothing is bigger than
Nothing is greener than
As near to His heart
As dear to His heart
As you

Insignificant, don't buy it
You're still the biggest thing in that picture
Aim your slingshot at Goliath
You're still the biggest thing in that picture

Don't you feel so small
Don't you feel so small
God doesn't see you that way at all
God doesn't see you that way at all
God doesn't see you that way at all

You're still the biggest thing in that picture
