

Alive

Rico Love

Alive, alive, alive, alive, alive
Alive, alive, alive, alive, alive

Hey, hey, hey, I just got chills just now
Soon as you walked over
Drive my ways, jump from that
2 clocks in
And the feeling is just evidence
There's something special
When we begin, whoa oh
This evening I just know it, I know
You caught my body beyond compare
Compare yeah
I've waited for so long, love
And right now, I see my fantasy right there

It's like tonight our dreams are made of
Waiting my whole life for
This moment in time
Let's close our eyes and see where it takes us
You'll never know, you'll never know
Tonight, I dream I come alive, alive, alive, alive
Tonight, I dream I come alive, alive, alive, alive

Hey, hey, hey, I can't be black... knight
I don't wanna be closer,
Saw your face, fell in love.
