

# Destiny

Rico Love

Other certain feeling you can't explain, no,  
Can I look to a certain And somebody mentions the name.  
Uhhh

I wanna thank your mamma just for having you,  
'Cause she had you, she had me, uhhh,  
Now I treat you special just to show you my gratitude, ohh.

I feel like I know you from the moment you were Maybe the stars  
in the sky to you,  
Now you hold me in my arms,  
It must be my destiny, ohh  
You must be my, you must be my, you must be my destiny, girl.

Maybe girl I don't think I could imagine a better day,  
Never be impossible without you right here,  
I can't believe that someone who ever let you get away,  
Now it would be my only fear.  
Ohhh

I want to thank your mama just for having you,  
'Cause she had you, she had me too,  
And now I treat you special just to show you my gratitude, ohh.

I feel like I know you from the moment you were Maybe the stars  
in the sky you,  
Now you hold me in my arms,  
It must be my destiny, ohh  
You must be my, you must be my, you must be my destiny, girl.

It must be my destiny, ohh.
