

Giant

Rico Love

I felt like I was over myself and
Totally helpless
I didn't have nobody
I had to be back somebody
I can lean on
And I had to find my own shelter from where then
Cause I was taking myself for granted
Depending on everyone to be my help
And now my hands can touch the sky

And now I'm more like a giant
No longer crying
Moving the clouds out of my way
No more scared of dying
No more scared of flying
Standing on top now I can say
That I'm more like a giant
Oh giant
Oh giant
Oh Moving the clouds out of my way
Oh giant
Oh giant
Oh and now I'm more like a giant

Now I feel stronger in every way
I guess I've found a cure to my weakness
I'm afraid no more no
My night has changed
I let go of all my burdens yo
If you put yourself inside my shoes
You will see it like I do
Everything is good from where I'm standing
And you don't have to find somebody new
If you fall in love with you
Nothing's breaking me down
Cause I'm...

And now I'm more like a giant
No longer crying
Moving the clouds out of my way
No more scared of dying
No more scared of flying
Standing on top now I can say
That I'm more like a giant
Oh giant
Oh giant
Oh Moving the clouds out of my way
Oh giant
Oh giant
Oh and now I'm more like a giant

Don't need nobody to carry me along the way
I'm not the same old person you met yesterday
There's no ocean that's too wide
There's no hill or mountain I can't climb
I'm no longer dying

And now I'm more like a giant
No longer crying
Moving the clouds out of my way
No more scared of dying
No more scared of flying
Standing on top now I can say
That I'm more like a giant
Oh giant
Oh giant
Oh Moving the clouds out of my way
Oh giant
Oh giant
Oh and now I'm more like a giant
