

I'll See You Again

Rico Love

I know you missing me like crazy
It's like some pictures just do no good
But if u close your eyes I know you can hear me
You'll forever be my baby
I'd take you on this journey if I could
This I can't do

So I'll kiss you in your sleep
Hold you by the hand
Sit and watch you breathe
Our love will never end
I'll kiss you in your sleep
I hope you understand
That heaven's calling me
But I'll see you again

See how the wind's been blowing lately
And I swear that something's in the air
You can feel my heart when the thunder's rolling
The earth beneath it starts quaking
That's when you can hear me loud and clear
I'm right there
And nothing you'll that bring for dawn
Those are my tears so don't you come bury your head... smell instead

So I'll kiss you in your sleep
Hold you by the hand
Sit and watch you breathe
Our love will never end
I'll kiss you in your sleep
I hope you understand
That heaven's calling me
But I'll see you again

I'll see you again, just cause I'm not don't mean my love is out
I'll show what you from my heart

So I'll kiss you in your sleep
Hold you by the hand
Sit and watch you breathe
Our love will never end
I'll kiss you in your sleep
I hope you understand
That heaven's calling me
But I'll see you again

So I'll kiss you in your sleep
Hold you by the hand
Sit and watch you breathe
Our love will never end
I'll kiss you in your sleep
I hope you understand
That heaven's calling me
But I'll see you again.
