

Kiss You In Your Sleep

Rico Love

I know you're missin' me like crazy
It's like the pictures just don't do no good
But if you close your eyes I know you can hear me
You'll forever be my baby, I'd take you on this journey if I could
I can't do it

So I'll kiss you in your sleep
Hold you by the hand
Sit and watch you breathe
Our love will never end
I'll kiss you in your sleep
I hope you'll understand
That heavens calling me
But I'll see you again

See how the winds been blowin' lately
You would swear that somethin's in the air
You can feel my heart when the thunders rollin'
The earth beneath you starts to quake, yeah
That's when you can hear me loud and clear
I'm right there
[?] you'll see that rain fall down
Those are my tears, so don't you cover your head,
Smile instead

Because I'll kiss you in your sleep
Hold you by the hand
Sit and watch you breathe
Our love will never end
I'll kiss you in your sleep
I hope you'll understand
That heavens calling me
But I'll see you again

Just cause I'm not here don't mean by love is gone
For I'll shower you with kisses from my heart

So I'll kiss you in your sleep
I hope you'll understand
That heavens calling me
But I'll see you again

So I'll kiss you in your sleep
Hold you by the hand
Sit and watch you breathe
Our love will never end
I'll kiss you in your sleep
I hope you'll understand
That heavens calling me
But I'll see you again
