

Never Neverland

Rico Love

Feels like they ripped down my heart
That day they broke us apart
But it just keeps on bleeding
And it's like I'm heavily medicated
Now that we are separated
Tell me the reason
So each night I wish on a star
Begging that all mighty Lord
To come restore my breathing
Cause since you've been gone
It's like I'm lifeless
Can't go on like this baby

I wish I could escape to never neverland
Some secret faraway place that I'll be better there
Living without you
I wish I could escape to never neverland
Some secret place beyond the moon
Prepared for me and you
Off to never neverland
I look at pictures of us
And Remember how it was then my soul keeps on bleeding
And baby I'm still dedicated
I believe we can make it
Just keep believing
And we can basically touch
But still I love you so much
Cause your key holds my freedom
And one day I'll be set free from these cuffs ooooh

I wish I could escape to never neverland
Some secret faraway place that I'll be better there
Living without you
I wish I could escape to never neverland
Some secret place beyond the moon
Prepared for me and you
Off to never neverland
I know you're reaching baby
Reaching for my hand
And even though you're speechless baby
I understand

I wish I could escape to never neverland
Some secret faraway place that I'll be better there
Living without you
I wish I could escape to never neverland
Some secret place beyond the moon
Prepared for me and you
Off to never neverland [x4]
