

Number 1

Rico Love

I am looking for my number one lover
Making no sexy faces
Looking right in the crowd
I am taking it to sexy places
We can dip or I am looking for my number one lover
I know she's got I am looking for my number one
Number one lover
Number one girl

Night lights spark lights
Camera flash but all I see is you
Girl all I see is you
all eyes on me but you are the one that I want to do
Uu girl listen baby you can say your boyfriend bye
You can tell your girlfriends you can meet next time
Cause tonight I am gonna make you all mine
I am telling you I just wanna change your life

I am looking for my number one lover
Making no sexy faces
Looking right in the crowd
I am taking it to sexy places
We can dip or I am looking for my number one lover
I know she's got I am looking for my number one
Number one lover
Number one girl
