

What's your name
What's your sign
You tell me yours I'll tell you mine
You pick a place, I'll pick the time
We do it all then we whine

I'm starting to feel like club is moving
I feel the move yeah
And when it feels nice don't' stop keep grooving yea yeah.
A couple drinks a little Some music enough
I watch the stroke lights cover the club
And the Dj is turning it up ooh

SMH, take my hand shake my head throw my hands up
SMH shake my head shake my head throw my hands up
SMH shake my head shake my head throw my hands up
SMH shake my head shake my head throw my hands up

Hit the flow breaka sweat kick it off you're soaking words
A little more
Who needs a rest world is yours you're the best

I'm starting to feel like club is moving
I feel the move yeah
And when it feels nice don't' stop keep grooving yea yeah.
A couple drinks a little Some music enough
I watch the stroke lights cover the club
And the Dj is turning it up ooh

SMH, take my hand shake my head throw my hands up
SMH shake my head shake my head throw my hands up
SMH shake my head shake my head throw my hands up
SMH shake my head shake my head throw my hands up

activation
Now my blood is flowing
Won't' be no aggravation in a place that we're going
It's a sonic masturbation
You can feel me exploding
Don't' need no hesitation
Just happen if you're going
Go! yeah! right! Yeah!
Turn the lights on!
Yeah! right! Yeah!

A couple drinks a little Some music enough
I watch the stroke lights cover the club
And the Dj is turning it up ooh

SMH, take my hand shake my head throw my hands up
SMH shake my head shake my head throw my hands up
SMH shake my head shake my head throw my hands up
SMH shake my head shake my head throw my hands up
