

Smile

Rico Love

Heart brake
I had my share
So many pieces on the floor
I can't believe there is still a heart there
But when you walk on that door baby I can't help to stair

Would you just smile, no words aloud
No one is around, just need your love to love to help me love a
way the clouds

Sunshine... on your lips
It's impossible to ignore
You're my potential baby my bliss
Sometimes I can't resist
You are the one that I adore
I could forever go on like this

Would you just smile, no words aloud
No one is around, just need your love to help me love away the
clouds
