

## You can't go by that

Ricochet

She looks like she just might  
Hold you tight all night  
You can't go by that

She looks tough, well, good luck  
You can't pass that one up  
You can't go by that

(You can't go by that)  
Once she takes hold  
(You can't go by that)  
You can't let her go  
(You can't go by that)

Boy, I swear I've been there  
If she acts like she cares  
(You can't go by that)

Her blue eyes hypnotized  
Oh, but like they light  
You can't go by that

She's so smooth, she makes you think  
That you hang the moon  
You can't go by that

(You can't go by that)  
Once she takes hold  
(You can't go by that)  
You can't let her go  
(You can't go by that)

Boy, I swear I've been there  
If she acts like she cares  
(You can't go by that)

Your heart is headed for a fall  
I can see it in your eyes  
If you had any sense at all  
You'd just walk on by

(You can't go by that)  
Once she takes hold  
(You can't go by that)  
You can't let her go  
(You can't go by that)

Boy, I swear I've been there  
If she acts like she cares  
(You can't go by that)
