## You can't go by that

## **Ricochet**

She looks like she just might Hold you tight all night You can't go by that

She looks tough, well, good luck You can't pass that one up You can't go by that

(You can't go by that)
Once she takes hold
(You can't go by that)
You can't let her go
(You can't go by that)

Boy, I swear I've been there
If she acts like she cares
(You can't go by that)

Her blue eyes hypnotized Oh, but like they light You can't go by that

She's so smooth, she makes you think That you hang the moon You can't go by that

(You can't go by that)
Once she takes hold
(You can't go by that)
You can't let her go
(You can't go by that)

Boy, I swear I've been there If she acts like she cares (You can't go by that)

Your heart is headed for a fall I can see it in your eyes If you had any sense at all You'd just walk on by

(You can't go by that)
Once she takes hold
(You can't go by that)
You can't let her go
(You can't go by that)

Boy, I swear I've been there If she acts like she cares (You can't go by that)
