

Ship Jumper

Riddlin' Kids

So you say you're leavin'
Turn your back and walk away now
You never did believe in
Any of this anyway
You wrote a song to fail
As you watched us flail
We'll still be here after the smoke clears

You know we know
We don't talk about it
You know we know
We built up walls around it
You know we know
We won't forget about it
You know we know

Well I guess the grass was greener
We'll watch you from the other side
There'll be no tears, no grievin'
Just a friendly wave goodbye
A captain's tale of a windless sail
Don't forget to skip
The part where you drop ship

We won't forget you
However long this takes
We won't forget you
No matter what you say
You wrote a song to fail
As you watched us flail
