Stop The World

Riddlin' Kids

I'm walkin' on broken eggshells Tryin' to make some sense of this Tryin' to save face with false appearances I started with next to nothin' And you're diggin' me a shallow grave Tryin' to put a face on what's holding me back today

I'm sayin' Ready for the world to stop Takin' everything I got Everybody's had enough So stop the world, cuz i want off Takin' everything I own Sinkin' to an all-time low Ready cuz it's time to go So stop the world, cuz i want off

I'm cookin' up a resurrection I'll serve it to you on a silver plate You don't want a taste of the fantasies that I create I'm walkin' on broken eggshells Tryin' to make some sense of this Tryin' to save face with false appearances

I'm sayin' Ready for the world to stop Takin' everything I got Everybody's had enough So stop the world, cuz i want off Takin' everything I own Sinkin' to an all-time low Ready cuz it's time to go So stop the world, and let's go home

I'm cookin' up a resurrection I'll serve it to you on a silver plate You don't want a taste of the fantasies that I create

I'm sayin' Ready for the world to stop Takin' everything I got Everybody's had enough So stop the world, cuz i want off Takin' everything I own Sinkin' to an all-time low Ready cuz it's time to go So stop the world, cuz i want off
