

Make The Spirit Burn

Ride The Sky

Come to see eternity
See the light within the dark
Hear evil, see evil
I am your dark shadow
I'm your mirror though distorted, shattered sevenfold

You can't control the fire
I can make your spirit burn

Come, embrace your deepest fears
Find divinity with me, seal your destiny
Go beyond insanity

You can't control the fire
I can make your Spirit Burn

We can controll the fire
We can reach the spirit world
