Deep Inside My Pocket

Ride

You think you know me inside out Think you know what I'm all about Here comes a slightly rude surprise

While you were tryin' to control
'N' trying to grab my soul
I blinked and saw right through ya

I'm spellin' out all of my rules
Keepin' charge of all my tools
I'm decidin' who gets inside

When someone cares it's nice to know 'Til that care turns to runnin' the show And then I'll turn on ya

There is a secret place it's deep inside my pocket Never try tellin' me who fits inside my pocket

I know what I have to find And I gotta whole lot of time Before I really reach my prize

Gotta desire to mess around It'd be cool just to fool around Maybe we'll mess together

There is a secret place it's deep inside my pocket Never try tellin' me who fits inside my pocket
