

Only Now

Ride

Only Now the jewel shining
Only Now I've lost the fear
In an hour I'll stop crying
Along the road ahead

Early on our life burned
Early on the gem not clear
Comes the time to take a turn
To find another way

And I swear
No hurricane could lead me all astray
And I swear
No hurricane would dare to try to keep me away

Only Now have you touched me
But by now you're who knows where
Only Now has it hit me
Wasn't sure before

Early on the signals cross
Where's the potion where's the drug
Just for now the jewel is lost
Keep on the road ahead
