

Black coffee in my throat  
I know it stings just a little,  
But it keeps me calm  
Thinking of how I was trying to go against the stream  
But now I know somewhere I was wrong  
The wind could carry all the labor away  
In spite of my exertions,  
It's not real to me  
Your words will come floating in the air  
"So let us just surrender ourselves to the sky"

Black coffee in my head,  
I know the way  
I try to do it is the trickiest way  
Akuma demo tenshi demo nai dakara  
Jibun rashii katachi de ii

Kaze ga subete saratteku  
Kokoro ni yadoru wa amai yume  
Mou sukoshi ganbatte miru?  
"So let us just surrender ourselves to the sky"

So don't go away,  
Cuz I wanna face you and say  
"Can't really explain,  
but there's something true,  
No tomorrow, live today!"

Kaze ga kinou wo saratteku  
Kokoro ni yadoru wa atatakai hizashi  
Sou kanarazu tadori tsuku  
Utsukushii basho he

The wind could carry all the labor away  
In spite of my exertions,  
It's not real to me  
Your words will come floating in the air  
"So let us just surrender ourselves to the sky"

So let us just surrender ourselves to the sky
