

## Dreams Be

Rie fu

If I still love the way it goes  
And if you still believe in me as before

I feel alive in middle tone  
If you still believe that you will stay here in my  
heart  
But I want it to stay  
I will stay free  
(It's just a simple chord like this)

I feel as though you've flown away  
Inside it's reality that nothing's here to stay  
But I want it to stay  
I keep pulling your sleeve  
There is always somewhere solid for me  
(No, but I can't stay here anymore)  
The day is gone and gone  
Comin' here again and again  
Too many times for I had longed for you  
Can't see the point of dreaming, so I'll just let it go

Once in a lifetime you will see, the day will come to  
me  
Today I still watch the stars  
Together our future lies (And again)

I feel as though it's over me  
But I still believe that I will stay there in your  
heart  
Oh I can't let it stay, it's over me  
No, I can't stay here anymore  
The day is gone and gone  
Can't stay here anymore  
Oh it's just a simple chord like this  
So just let it go
