

## Something In My Head

Rie fu

There's something warm in my head, in my head  
There's something warm in my head, in my head  
And it's a feeling of love, and a feeling to take  
I can never hide it, you can never find it,  
They can never take it away from me  
Oh I really like it, I can hardly stand it,  
I get nervous comfortably

And it feels so good, hello, goodbye,  
Just another phrase, I'll keep it up and start it again  
And it feels alright, hello, Goodbye  
It's just something in my head  
Hmmm

There's something warm in my head in my head  
So lets take a ride, take a ride, look ahead  
Lets go to the beach or maybe the mountains today  
I can never hide it, you can never find it,  
they can never take it away from me  
you will really like it, nobody can deny it,  
come on get in, ride on with me

And it feels so good, hello, goodbye,  
All this speed, oh can you keep it up and start it Again?  
And it feels alright, hello, Goodbye  
It's just something in my head  
mmm

And it feels so good, hello, goodbye,  
Just another phrase, I'll keep it up and start it again  
And it feels so good, hello, goodbye,  
All this speed, oh can you keep it up and start it again?  
And it feels alright, hello, Goodbye  
It's just something in my head
