

Hello American citizens  
Be very cautious in these trying times  
Notice how men deserting other men  
Not only hurting other women  
I suggest you take safe precautions  
And stay away from men at all cost  
Me myself personally I'm going into protection mode  
Should any mans try to touch myself  
I would hate to have to use brute physical force  
To remove you from my presence  
Good Day America, good day indeed
