

As the days keep turning
As the world keeps burning
As my soul keeps learning
Tears fall from the castles around my heart

Paperboy, top noise
Now I'm in Chinatown, bok choy
Should've took a pill, Clamcil
The way I ball that I could've played for Vanderbilt
When they talk me down
They gotta speak up
When they say my name Jody
They talking bout Jody
Talking Jody Highroller
I keep the syrup in my soda

As the days keep turning
As the world keeps burning
As my soul keeps learning
Tears fall from the castles around my heart

When I wake up, its a mystery
Every time I open my mouth, history
2K13 dreams in a limousine
The world burns slow, kerosene
Candle wax melts, in my fortress
I sit alone, my heart stoned
My thoughts get assorted
I know you can't afford it
Jody, Highroller

As the days keep turning
As the world keeps burning
As my soul keeps learning
Tears fall from the castles around my heart
