

Those Simple Things

Right Said Fred

The film we saw and loved
The cab that never showed
The moon that walked us home

Tell me that you care
Let me know you're mine
Ain't it those simple things

That make love a joy to live
The pleasure they bring
Just the thrill it is to give
Emotions will sing
With just those simple things

The light upon your hair
The touch of your skin
This cotton cave we're in

Tell me that you care
Let me know you're mine
Ain't it those simple things

That make love a joy to live
The pleasure they bring
Just the thrill it is to give
Emotions will sing
With just those simple things

Tell me that you care
Let me know you're mine
Ain't it those simple things

That make love a joy to live
The pleasure they bring
Just the thrill it is to give
Emotions will sing
With just those simple things

Those simple things ...
