

Under a Simpsons' sky

Right Said Fred

If you lived next door to me
I you'd be so neighbourly
I'd try to be your friend
Barbeques at the weekend

If you need a favour say
To feed your cats
While you're away
I's water all your plants
You're my mate at the first chance

'Cos we're living under a Simpsons' sky
Where we live and love and laugh until we die
Yeah we're living under a Simpsons' sky
You and I

If at work we were colleagues
You could share my car with me
We'd sing my favourite songs
You and I and a sing- song

'Cos we're living under a Simpsons' sky
Where we live and love and laugh until we die
Yeah we're living under a Simpsons' sky
You and I

'Cos we're living under a Simpsons' sky
Where we live and love and laugh until we die
Yeah we're living under a Simpsons' sky
You and I

Why did you then move away?
While I was on holiday
The new guy seems quite nice
I'll drop by to break the ice.
