

We Live A Life

Right Said Fred

We live a life, we live a life
of love, living a life

I've got questions in my head
she's got answers in her bed
scratch my back, I'm all yours
kiss my neck, I'm on all fours

disconnect your telephone,
scared to get you all alone
disconnect the telephone
forget the operator's tone

we live a live, we live a life
of love, living a life of love
we live a live, we live a life
of love, living a life of love

flower come flowers go
that don't mean we won't sole
I've got angels on my lips
she's got voodoo on her hips

disconnect your telephone,
scared to get you all alone
disconnect the telephone
forget the operator's tone

we live a live, we live a life
of love, living a life of love
we live a live, we live a life
of love, living a life of love

living a life of love
living a life of love

give the thing a name my sweet
it's called love it can't be beat

disconnect your telephone,
scared to get you all alone

we live a life, we live a life
of love, living a life of love
we live a life, we live a life
of love, living a life of love
we live a life, we live a life
of love, living a life of love
we live a life, we living the life
of love, living a life of love
