

## Mane De Maeroris

Rigor Sardonicus

O' early morning sunrise  
Save my soul and light my face  
Then a shadow fallen from heaven  
Came and took me far from grace

My life is now lost, hope is gone  
Lay down upon my grave, I am now  
Dead

O' angels of the darkness  
Touch my flesh and hide thy face  
Take my body into stardust  
And the earth shall fall in flames

Amen
