

# A Girl Like Me

Rihanna

Ohh  
Mmmhhh mmhh  
Woah-woah  
Woah  
Yeah  
Yeah

[Verse 1:]  
Some girls play the game  
They all walk and talk and they dress the same  
Nothing new to say (nothing new to say)  
Don't they realize  
It's so easy to see right through their disguise  
Makes me wonder why  
When the whole world is turning left  
That's when im going right  
I need someone who'll let me be  
Just who I am inside

[Chorus:]  
Cause a girl like me  
Just a little different from all the rest  
And a girl like me  
Never gonna settle for second best  
Could it be a boy like you  
Give me anything if I ask you to  
Take all my dreams  
And then make them true  
Show me all the reasons you ought to be with a girl like me (a girl like me)

Woah-woha oh  
Just like me (just like me)

[Verse 2:]  
Possibility  
Got me tripping thinking of what could be  
between you and me (between you and me)  
But still I need to know  
Should I keep this feeling or let it go  
I cant wait no more  
So now the time to speak your mind and show me what you feel  
So tell if you wanna take  
A chance on something real

[Chorus:]  
Cause a girl like me (girl like me)  
Just a little different from all the rest (oh-oh oh)  
And a girl like me  
Never gonna settle for second best (never gonna settle)  
Could it be a boy like you  
Give me anything if I ask you to (if I ask you to)  
Take all my dreams  
And then make them true  
Show me all the reasons you ought to be with a girl like me (you ought to be  
, with a girl like me)

Like me  
Woah-woah (woah-woah)  
Oh (oh)  
Just like me (just like me)

[Bridge:]  
Mirror mirror on the wall  
Catch me now before I fall  
Wish I may or wish I might  
Find the answer here tonight
