

# Cold Case Love

Rihanna

[Verse 1:]

On my roof  
Dark & I'm burning a rose  
I don't need proof  
I'm torn apart & you know  
What you did to me was a crime  
Cold Case Love  
And I let you reach me one more time  
But that's enough

[Hook:]

Your love was breaking the law  
But I needed a witness  
So pick me up when it's over  
It don't make any difference  
Will it ever be solved  
Or am I taking the fall  
Truth was there all along  
Tell me how did we miss it

[Chorus:]

We opened up a cold case love  
And It got the best of us  
And Now prints, pictures & white outlines  
Are all that's left at the scene of a crime  
Of a cold case love

[Verse 2:]

Should've investigated  
But love blinded eyes  
Couldn't see (no)  
And Then I tried to cage it  
But your love ain't the kind you can keep  
Release me now cause I did my time  
Of this cold case love  
My heart's no longer cold & confined  
I've had enough

[Hook:]

Your love was breaking the law  
But I needed a witness  
So pick me up when it's over  
It don't make any difference  
Will it ever be solved  
Or am I taking the fall  
Truth was there all along  
Tell me how did we miss it

[Chorus:]

We opened up a cold case love  
And It got the best of us  
And Now prints, pictures & white outlines  
Are all that's left at the scene of a crime  
Of a cold case love

[Bridge:]

We lost our way

Took this too far  
Now I'll never find the pieces of my heart  
We've lost enough  
Looking for a truth  
That was here all along

[Chorus: (2x)]  
Cold case love  
And It got the best of us  
And Now prints, pictures & white outlines  
Are all that's left at the scene of a crime  
Of a cold case love

We opened up a cold case love  
And It got the best of us  
And Now prints, pictures & white outlines  
Are all that's left at the scene of a crime  
Of a cold case love
