

Dem Haters

Rihanna

I'm not concerned with people
Who pray on the wealth of their fellow men (Oh yeah)
Cuz they only wanna know you
And roll you
only for the things you have
I just think you're so sad

Dem haters at your circle
Smilin' in your face
but all they wanna do is bring you down (bring you down, down, down)
See them try dem best to hurt you
Dem work you, anything to bring you down

They keep evil thoughts in their heart (you don't know)
You can't make them knock ya' hustle
After them not know how much you struggle
They turn green with envy
When you're on top
And dem heart is full with strike
And thereby they will . . .

Dem haters at your circle
Smilin' in your face
but all they wanna do is bring you down (bring you down, down, down)
See dem try them best to hurt you
Dem work you, anything to bring you down
(2x)

You know they talk about you when they tell their lies
So don't be a fool, you better recognize
They're not there for you
They don't care for you
Trust me coz I know it's true

You know they smile in your face
And make you think they down
But then they turn against you when you're not around
It's just jealousy, And dishonesty
So hold on to your sanity

Dem haters at your circle
Smilin' in your face
but all they wanna do is bring you down (bring you down, down, down)
See them try them best to hurt you
Dem work you, anything to bring you down
