

# Fire Bomb

Rihanna

Yeah  
Whoa  
Gunfire left a hole  
In the tank  
Losing gasoline

Fire is on my trail  
And hes after me  
Hope it dont get here  
Before I get where Im going  
I gotta get where Im going  
Take off the masked debris

You couldve been a part of a  
Masterpiece  
Fluid in the breaks  
Was the last to leak  
Thats the thing

Where Im going  
I dont need my breaks  
Cant wait to see your face  
When your front windows break  
And I can crash through

The love is near to clear the road  
Oh, oh, oh  
Cause this thing is ready to blow  
Oh, oh, oh

I just wanna set you on fire  
So I dont have to ride alone  
Then you  
Then youll know where  
Im coming from  
Fire bomb  
Fire bomb

Seats go  
But baby no  
Doesnt have to be  
Like the way that Im at  
A tragedy  
Watching it burning  
Its beautiful and its blue  
And its pitiful  
And its through  
Its the other half of me

I didnt do it  
You lit from match from me  
Now were flying  
From the blast, baby  
Thats the thing

Where were going  
We dont need no breaks

Cant wait to see your face  
When your front windows break  
And I dont crash through

The love is near to clear the road  
Oh, oh, oh  
Cause this thing is ready to blow  
Oh, oh, oh

I just wanna set you on fire  
So I dont have to ride alone  
Then you  
Then youll know where  
Im coming from  
Fire bomb  
Fire bomb

Baby were working on  
They couldnt handle  
The millionth degree  
We were criminal  
As we were burning  
The world called  
The police  
Fire department  
Ambulance  
You call me crazy  
Cause that was the  
Only move  
For me and you  
To blow our flames  
And

The love is near to clear the road  
Oh, oh, oh  
Cause this thing is ready to blow  
Oh, oh, oh

I just wanna set you on fire  
So I dont have to ride alone  
Then you  
Then youll know where  
Im coming from  
Fire bomb  
Oh, oh, oh  
Fire bomb
