

Never Ending

Rihanna

Lost in the mirror
I knew your face once, but now it's unclear
And I can't feel my body now
I'm separate from here and now
A drug and a drink
We lost connection, oh come back to me
So I can feel alive again
Soul and body try to mend

It's pulling me apart, this time
Everything is never ending
Slipped into a peril that I'll never understand
This feeling always gets away
Wishing I could hold on longer
It doesn't have to feel so strange
To be in love again
To be in love again
To be in love again

Lost in the mirror
I knew your face once, but now it's unclear
And I can't feel my body now
I'm separate from here and now

It's pulling me apart, this time
Everything is never ending
Slipped into a peril that I'll never understand
This feeling always gets away
Wishing I could hold on longer
It doesn't have to feel so strange
To be in love again
To be in love again
To be in love again
