

It'll Get You There

Rilo Kiley

All the trips that you take, they will get you there
All the little white pills you take, they will get you there
All the compliments that you take, they will get you there
All the hearts that you break, they will get you there

It'll get you there
It'll get you there
It'll get you there
It'll get you there

All the hostages that you take, they will get you there
All the hands that you shake, they will get you there
All the conman that you fake, it'll will get you there
All the hearts that you break, they will get you there

It'll get you there (8x)
I will get you there

All the pennies that you save, they will get you there
All the hearts that you break, they will get you there

It'll get you there (8x)
I will get you there
